

Resilient Floor Coverers Local No. 2287

United Brotherhood of Carpenters and Joiners of America

FINAL NOTICE

Effective July 1 2009, all members are to register for and take the NWFA INSTALL Certification. Effective July 1, 2009 all members are required to take the OSHA 30 course. Failure to comply may reduce your work opportunities in the future.

Flooring is a very competitive industry with non-union all around us. It's very important we stay one step ahead of them at all times. In order to do that we must be the most highly skilled and safety minded Floorcovers in the market. We are a union with a product to sell and that product is on time quality installations. Remember companies with the best products make the most sales. To our members more sales equals more work for everyone.

In order for the INSTALL program to work we must work together as a team. As your representatives we will market INSTALL to designers, architects, developers, facilities managers and public work agencies. We will also work on getting INSTALL language into building specs, leases, PLA's and into all public work contracts. As members you must be the most highly skilled, productive and safety conscious floorcovers in the industry. To accomplish this you must take the INSTALL certification and 30 hour OSHA. Also you must take advantage of journeyman upgrades & health & safety class in order to stay ahead of market. Working together we can make Local 2287 the driving force in the flooring market long into the future.

To register for INSTALL call the school at (212) 727-2224 and ask to speak with Linda Peterson ext 110.

Fraternally yours,

Michael Zemski
Business Manager
Local Union 2287
